

Framing Directions

Framed

Stretched Canvas

Stretched canvas should be mounted on a frame with edges painted or finished with tape. It must have a hanging wire as described below.

Back of Frame

Hanging wire goes from one side of frame to the other and is secured with a screw or bracket. **No string. No tape. No hot glue. No staples.** Mount wire 1/3 the distance from the top of the frame. Arch of wire should be about 1" from top of frame.
